Android and PC endoscope camera

Product properties
Endoscope camera for the inspection of narrow or difficult accessible areas. The camera records (in combination with an Android device or a PC) photos, videos and audio data. The device is dust-proof and protected against temporary immersion in water. It has 6 LEDs, whose light intensity can be adapted by a rotary wheel.

Scope of delivery:
Mini endoscope camera with micro-USB cable, small hook, magnet, mirror (90° view), protective cap, software CD, manual, USB to micro-USB adapter.

Area of application
PC with USB port or Android devices with OTG function. Protection class IP67.

Application
There is a protective film on the mirror that has to be removed before first use.
