

Special Maintenance (SMS)

Special Maintenance

Product properties

PRO-TEC Special Maintenance is free of grease, oil and solvent, but with a highly active sliding, lubricating and protecting action. Active penetration and high adhesiveness. Safe lubrication in all temperature ranges. Water repellent and long term protection against corrosion. Eliminates leak current and voltage loss. Impregnates and protects exterior plastic parts e. g. safety bumpers, radiator grills, cabriolet soft tops. Assembly aid when connecting hoses or fitting weatherstrips.

Area of application

in the industry and workshop area

Application

Shake can well and spray onto area to be lubricated.

Consumption

Depending on the application

Reaction time

Works permanently

Technical data

Physical state: aerosol
Colour: clear/colourless
Odour: characteristic
Ignition temperature: > 200 °C
Density at 68 °F: 0,608 g/cm³
Water resistant
Solvent content: 88,2 %

Available sizes	Item no.	PU
500ml	P2401	24
